Declaration of conformity REACH EG No. 1907/2006

Burat & Klein Datentechnik GmbH, hereinafter referred to as B&K, is a manufacturer and supplier of electronic components in the field of measurement technology for research and development. This REACH declaration of conformity applies to the products **MiniMessBOX**, **MultiMessBOX**, **TeleInspektor®**, **MessVerstärker**, **Mess-Shunt** and various extension components (**IH11 A20/A50**, **UG11 A20/A50**, **Steuer-** and **DG-MessBOX** and the **SENSIM** simulators) with which analog and digital measurement signals can be determined and digitally processed.

B&K produces and sells exclusively non-chemical products. No product designated as a "substance" under REACH is released during proper operation.

- All products manufactured or distributed by B&K are not affected by REACH regulations or are below the specified limits.
- B&K only purchases products from suppliers that are REACH compliant. B&K is always in direct communication to source products without SVHC substances of concern according to REACH Article 33.
- Based on all available information, we assume that the intended use of the products in the field of metrological data acquisition does not contain any substances of concern above 0.1% (SVHC) that are subject to the information obligation. A safety data sheet (SDS) is therefore not required.
